REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art references teach or suggest an absorbent material or clumping animal litter that has a coated particulate structure wherein the bentonite particles form a coating as claimed. Most references teach bentonite and/or clay as the main ingredient of clumping particles and the particles are not coated. Some references (i.e. US Patents 5,101,771; 5,339,769; 4,407,231; and 4,641,605 to Goss, Toth, Colborn and Gordon respectively) teach a coated particulate structure; however the coating material is a clumping material comprising an organic resin.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.
